

**Description:**

- This is a printable resource to help you track your incoming and outgoing visitors
- We believe this will be a useful resource for semi-independent seniors or adults with disabilities that may have multiple weekly services or supports coming and going from the home.

**Tips for the Visitor Form:**

- We suggest printing the form and securing it to the fridge or somewhere that visitors will see it as they come and go.
- Include a pen or pencil nearby and encourage visitors to record their visits on the form.
- Once a sheet has been filled, replace it with a blank one and store used sheets in a folder in case you need to look back on them.
